

RV Checklist

for Arrival

WALK AROUND - look for sharp objects on the ground, look up for low hanging branches, dead tree limbs

HOOK UPS - Do they seem to be in working order? Note where your connections are and if you can reach them

PARKING- Park your RV, be sure there is room for any slides and Chock the wheels

DISCONNECT- When the wheels are chocked, if you have a tow vehicle, disconnect it.

LEVEL- Check your leveling and adjust using level blocks if needed and re-chock

JACKS- Put your jacks down

CONNECT- Attach your electric, surge protector, security, water, and sewer

POP OUT- Open your slide outs

SET UP- Set up the inside of your camper, be aware of falling items when you open the fridge and cabinets.
